

# Bolivian Rainbow

C. annuum

POD COLOR VARIATION

YOU CAN GROW THIS PLANT AS A SMALL BUSH OR A HUGE SEA OF COLORS! JUST USE A CONTAINER SIZE YOU'D LIKE.

## IDEAL TO GROW AS A BONSAI CHILE AKA "BONCHI"

This ornamental chile pepper variety works ideal as a bonsai chile pepper aka. bonchi! Everything is ideal for it: the size of the plant and the pods, very nice looks, fast growth and toughness of the plant. Even a tine bonchi Bolivian rainbow can produce a nice yield of multicolored pods!

Learn how to turn your favorite variety into bonchi:

FLOWERING BOLIVIAN RAINBOW  
BONCHI AS A DESKTOP PLANT.

THESE PODS  
REALLY DO  
LOOK LIKE  
CANDIES.  
I WOULDN'T  
RECOMMEND  
THEM JUST FOR  
CULINARY USE  
EVEN THOUGH  
THEY WORK  
NICELY WHEN  
POWDERED.

**THESE PODS LOOK GREAT IN ALL STAGES!**
